Lubricants indicated for conic gearboxes with helicoidal teeth operating under speed conditions and load from heavy to light, Hypoidal gearings operating under moderated speed conditions. Lubricant specially formulated for manual gearings.

QUALITY LEVEL

API GL-4
MIL-L 2105

TYPICAL CHARACTERISTICS

Characteristics	Unit	Value
Viscosity at 100°C	cSt	283
Viscosity at 40°C	cSt	412
Viscosity index		95
Maximum temperature for a 150.000 viscosity	cP	-8
Inflammation point	°C	230
Pour point	°C	-12
Density at 15°C	KG/L	915
